

Here's the cleaner README version without Project Structure, Installation & Setup, Backend Setup, Frontend Setup, or Database configuration sections:

AI Interview Platform

An AI-powered mock interview platform built using Spring Boot, React.js, and MySQL that helps users practice interviews, improve communication skills, and receive automated feedback in a real interview-like environment.

Features

- User Registration & Login
- JWT Authentication & Authorization
- Email OTP Verification
- Forgot Password & Reset Password
- AI-Based Interview Experience
- Mock Interview Sessions
- Automated Feedback System
- User Dashboard
- Interview History Tracking
- Protected Routes
- Responsive Frontend UI
- REST API Architecture

Tech Stack

Frontend

- React.js
- React Router
- Axios
- Tailwind CSS / CSS

Backend

- Java
- Spring Boot
- Spring Security

- JWT Authentication
- REST APIs

Database

- MySQL

Tools & Platforms

- Git
- GitHub
- Postman
- IntelliJ IDEA
- VS Code

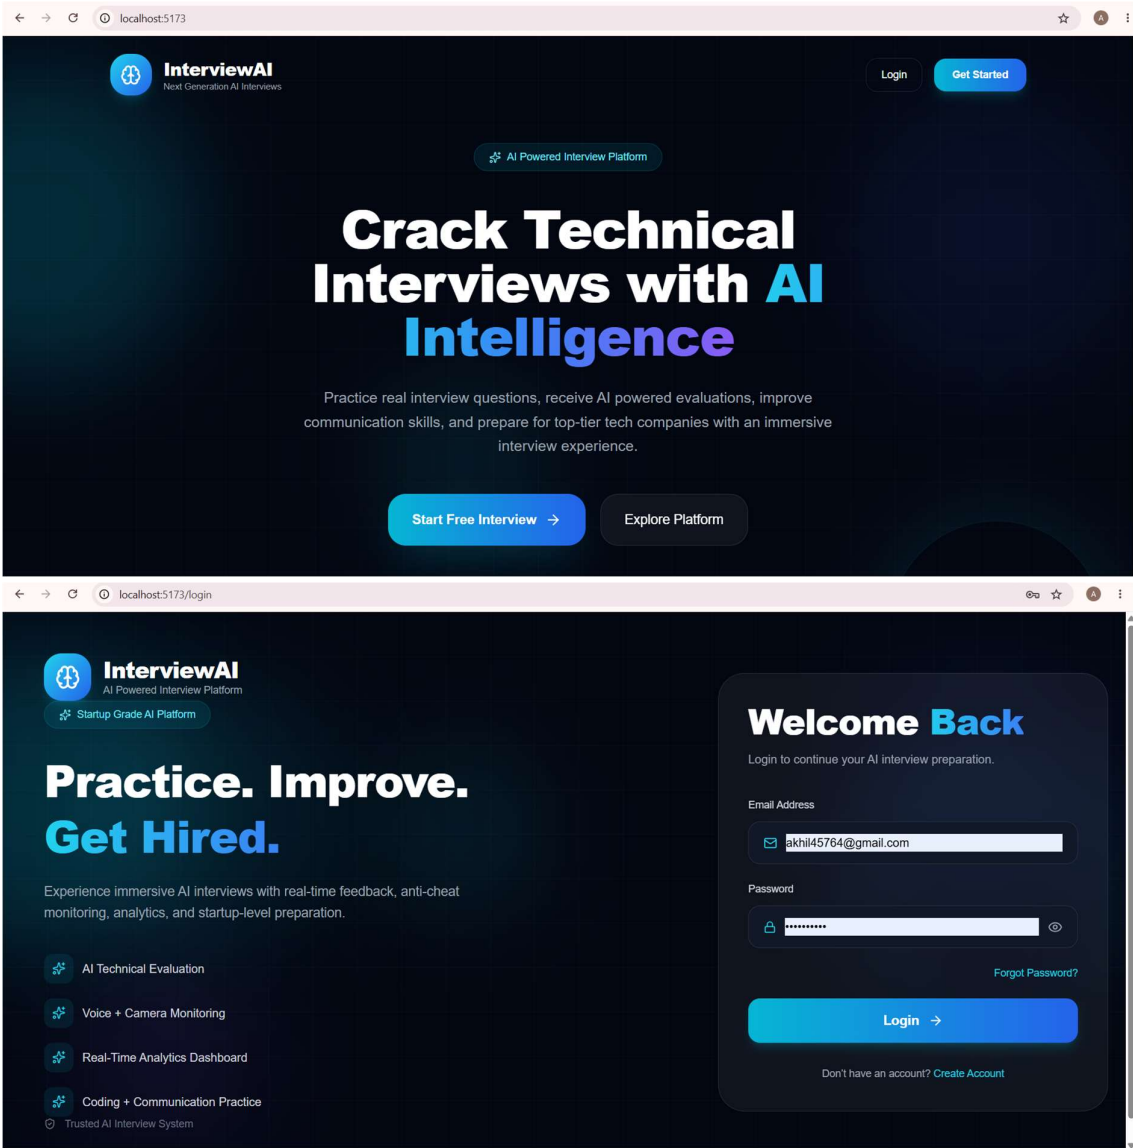

API Features

- Authentication APIs
- OTP Verification APIs
- Password Reset APIs
- Interview Session APIs
- Feedback APIs
- User Dashboard APIs

Future Improvements

- AI Voice Interview Integration
- Resume Analyzer
- Real-Time Coding Interviews
- Video Interview Support
- AI Performance Analytics
